SLUSHY / SMOOTHIE MACHINE INSTRUCTIONS

STOP: VERY IMPORTANT!!!!
BEFORE FILLING TANKS, BE SURE THEY ARE SEATED SECURELY
OR JUICE MAY SPILL OUT!!

SLUSHY MIXTURE

MIX 1 GALLON OF SLUSH MIX WITH 4 GALLONS OF COLD WATER. (WE RECOMMEND THAT YOU USE THE 5 GAL. BUCKET TO MIX IT IN AND THEN POUR MIX INTO EACH HOPPER.)

SMOOTHIE MIXTURE

POUR 2 PACKS OF SMOOTHIE MIX INTO EACH SIDE OF MACHINE. ADD 2 GALLONS OF COLD WATER TO EACH SIDE. NO MIXING REQUIRED. ALLOW 50-70 MINUTES TO MAKE PRODUCT. EACH PACK YIELDS ABOUT 18 CUPS OF FINISHED PRODUCT.

OPERATING MACHINE

- 1) PUSH ON/OFF BUTTON
- 2) PUSH SNOWFLAKE BUTTON ON EACH SIDE UNTIL IT READS: "ICE"
(CHILL IS MORE LIKE A REFRIGERATOR, IT JUST KEEPS IT COLD IF YOU WANT TO CHILL IT OVERNIGHT)
- 3) PUSH AUGER BUTTON

CAUTION!!!

NEVER LET MIX GO BELOW LINE, ESPECIALLY IF AUGER IS TURNING

REMEMBER THERE WILL BE AN ADDITIONAL CLEANING CHARGE

IF UNIT IS NOT RETURNED CLEAN. EMPTY THE HOPPERS. TURN OFF THE MACHINE AND ADD ONE GALLON OF WARM WATER TO EACH HOPPER AND DRAIN. THIS WILL RINSE OUT EACH HOPPER.
